Rusty Deeble owner of Digital Installers spoke about his business during the Long Beach Executive Association networking lunch in Long Beach. Rusty has been a member since 2013, is on the Board of Directors and holds the position of Secretary/Treasurer.

The Deeble have been a Long Beach family for generations. Rusty graduated from Cal State Long Beach with a Bachelor's in IT. His passion frustration to make a perfect computer lead him to digital installation and network design.

Digital Installers specializes in the automation of homes, businesses and restaurants. Their products and services encompass audio, visual, networks, security and WiFi. What does that mean? They can run the fiber optic wires throughout your home or business, install routers and servers, install and integrate cameras, speakers, TVs and digital displays to allow you to have your home react to your presence or be monitored remotely with your smart phone.

If you want music to turn on as you walk from room to room call Rusty. If you know someone who is opening a restaurant and needs multiple TVs installed with a network and server to manage them, call Rusty. If you need a state of the art conference room designed call Rusty. If it's high-tech, Digital Installers can do the job and make it look great.

Thank you to Dr. Chang for hosting the EALB at his office in December for a Membership Showcase event. We had a great time and can all agree you have a beautiful office and wonderful staff.
